Rastar Group is a leading company of Toys manufacturing and a supplier for licensed model cars of globally famous brand, offering includes Licensed RC & Die Cast & Ride On cars, bikes, patent walking suitcase, multi-functional toys.

With the development of the internet and intelligent technology, starting in 2013, Rastar entered the mobile games, video games through a series of acquisitions. Rastar Teamtop is a distinguished game development, production and operation company. In future, games will be integrated with IP of film, cartoon and novel in respect to content creation, marketing and branding.

Rastar Group set foot in Sports field from 2015, and holds a La Liga club RCD Espanyol which has a long history of more than 123 years.

In future, let health & happiness surround you.

***Advantage of Product Research and Development**

With the development of more than 10 years, Rastar Group has gradually established its own R&D laboratory, modern manufacturing base and an R&D team of nearly 200 engineers. It is reported by Southwest Information Center of Department of Science and Technology that having successfully implemented more than 30 R&D projects and owning more than 20 independent intellectual properties, the laboratory has reached international advanced level.

***Advantage of Brand**

From the beginning of company transformation and upgrading, Rastar has obtained licenses from many world-famous car brands, including Lamborghini, Ferrari, Mercedes-Benz, etc., among which BMW grants Rastar a globally exclusive license on R/C model cars. Through innovation of technology and application of new materials, Rastar has developed a series of model cars, which keep the same exterior with corresponding real cars and could satisfy global markets. It has been certified towards a lot of international safety standards, such as CE, FCC, ASTM, F-963, etc. In 2004, Rastar was certified by CQC, ISO9001, as one of the 2000 Quality Management System Certification enterprises, thus became one of the first toy companies obtaining CCC certification, Rastar have also obtained ICTI ethical toy program and ISO14001, the Environmental Management System Certification.

***ABB Robotics Automatic Production Line**

Rastar is the only company in China which spent huge sums to purchase the ABB Robotics and with this machine, the spraying is processed in the vacuum and dust-free environment throughout. ABB Robot is a production machine to be used in the automobile industry. Applying the ABB Robotics to the production of model cars can solve the problems brought by the traditional technology, for example, the color streaks and difference from the required color. Through the spraying of ABB Robotics in the vacuum and dust-free environment, all the problems brought by the traditional method could be solved perfectly and the model cars in the bright and uniform color without any impurities.

***ABS Aerospace Plastic Materials**

ABS plastic is a kind of plastic material with the strong impact resistance, heat resistance, cold resistance as well as chemical resistance. It has been widely used in the exterior body panels of car and the dashboard. Rastar uses ABS plastic in the model car to make it with excellent mechanical property, high impact strength and impact resistance. Even when the model is strongly destroyed, it will be tensile failure instead of impact failure, so it won't bring any potential threats to the children.

***The Marketing Strength of Rastar**

Rastar has the most extensive sales channels in the industry. Domestically, there are lots of shops and point-of-sales, covering the IT channels, supermarkets, bulk sales as well as the e-commerce. In abroad, Rastar has shops and point-of-sales in more than 47 countries and regions, including Japan, America, Africa and Australia. Rastar always shines at toy exhibitions in America, Germany and some other countries. The excellent products and professional service of Rastar gain recognition from many international experts.

***Guarantee of Excellent Quality**

The world-famous automobile manufacturers visit Rastar's factory annually to supervise the quality of our products and offer technology support, ensuring that each model car will be consistent with the real car. Rastar will assign the specialized technical staffs acquiring the technical training some car factories in abroad, which makes our products be geared to the international standards.
